Description:

E14 To E27 Lamp Holder

Main material:

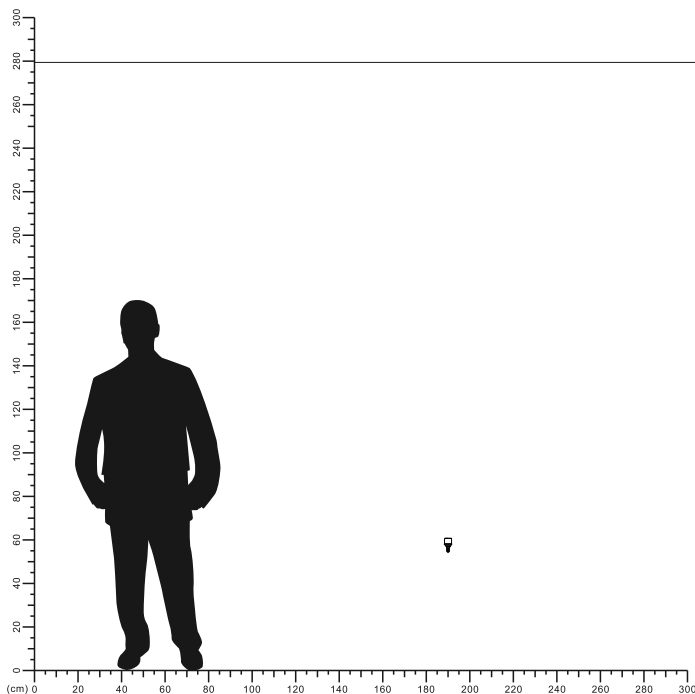

Copper+PC

Specification

Brass is a highly durable material that is resistant to corrosion, wear, and tear. It can withstand exposure to various environmental conditions without losing its structural integrity. Brass has excellent electrical and thermal conductivity properties. It is often used in electrical components, connectors, and plumbing fixtures due to its ability to effectively conduct electricity and heat. IP20

Applications

- . Shopping mall
- . Office buildings
- . Exhibition hall
- . Public lighting places
- . Domestic
