

Product benefits & features:

Track installation: DC24V low-voltage track magnetic suction lights usually have a special track installation system, such as a magnetic suction track. This design allows the luminaire to be conveniently installed on the track and can be freely moved and adjusted to adapt to different lighting needs.

Diverse luminaire selection: DC24V low-voltage track magnetic suction lights offer a variety of luminaire options, such as spotlights, floodlights, and projectors. Users can choose different types of luminaires based on specific scene requirements to meet different lighting needs.

Areas of application:

Caution:

- ## Product Installation and Wiring Diagram

Technical drawing of a lamp. The lamp consists of a rectangular head, a central stem, and a conical shade. Dimensions are indicated on the right side: the head is 12.4mm high, the stem is 1000mm long, and the shade is 36mm high. The head has a width of 57mm and a depth of 57mm. The shade has a top diameter of 57mm and a bottom diameter of 74mm.
